

BEAST SYSTEM (ENGLISH)

From Todd Aaron @seeworldtruth:

Remember I said it will never go back to normal? If you ever considered anything in this life as normal including your life no matter who you are, it's never been normal. When you start feeling like you aren't normal, and don't fit into society nor mold into its standards of living, not desire what the world desires nor like it's pleasures, entertainment, buying, selling, business, music, shopping, and sins. You will see the world God designed you to live for, in this life what our eyes can see and what we experience in this flesh is not what God intended for us. All the buying, selling, trading, business, is all an illusion soon to be destroyed. The beast,

dragon, and false prophet is a trio on Revelation, they are here before us, yet to be revealed. But we certainly should be seeing those who are a part of their kingdom, ruled by their powers, deceived by their tactics and whits, desires and passions, while blinded to what's to come. Vaccines, masks, sanitation, health, protests, presidents, votes, all these things are distractions to a greater larger scale agenda which this world nor civilizations past has never seen! The global agenda has already won! You can try to fight it, but YOU WILL FAIL! Enough with the conspiracies, signs, wonders, watching television for a satanic divination and sign. All who do such things will be misled, all who love their jobs and business will be deceived, all who love their lives and their belongings will be deceived. All who trust in many churches and ministers will be deceived. Many will align themselves with the false agenda unknowingly to stay afloat and in business. They will deceive millions blinded by false peace, prosperity, success, distraction. What is about to come is going to shake and change the world for the days ahead, how many are truly ready? The beast system is now here, and it's amongst us. The final hours are here and so is the clock ticking before Messiah's return! Don't be caught sleeping and playing in the world..
